

11 Convicted Commie Leaders Free On Bond

Civil Rights Congress Posts Bail

New York, Nov. 3.—(AP)—The 11 convicted Communist leaders were freed from jail tonight under \$260,000 bail.

The U. S. Circuit Court of Appeals ruled early today they were entitled to bail until they can appeal their convictions and prison sentences.

But the government stubbornly held up their release some 10 hours until it was satisfied all formalities of bail were complied with.

Government prosecutors had fought for \$1,000,000 bail, arguing that a lesser amount might tempt the communist leaders to disappear.

About 100 persons fidgeted for several hours outside the federal courthouse, awaiting the release of the convicted men. They finally began filing out one-by-one after darkness had fallen.

Dennis First Released

Eugene Dennis, acting head of the American Communist party, was the first to be released after his bail was approved. He sat down in the court room to await release of the others.

Three of the men had been behind bars since last June. They were Gus Hall, Henry Winston and Gilbert Green. Trial Judge Harold R. Medina jailed them for contempt for the duration of the trial.

The other eight defendants joined them in jail after they were convicted Oct. 14 of conspiring to advocate the violent overthrow of the U. S. government.

Judge Medina on Oct. 21 sentenced 10 of the defendants to serve five years in prison. He gave the 11th, Robert Thompson, three years because of his good work record.

All 11 were ordered to pay \$10,000 fines.

Medina Refused Freedom

Judge Medina refused them their freedom on bail.

However, the appeals court ruled today they were entitled to their freedom while they are appealing the conviction and sentences.

The appeals judges, Learned Hand, Thomas W. Swan and Jerome N. Frank, said the government has conceded that the appeal raises a "substantial question."

The question concerns the constitutionality of the Smith Act, the federal law under which the 11 were tried. It makes it a crime to advocate the violent overthrow of the government.

The U. S. supreme court will be asked by the defense to rule on whether the act is constitutional and whether it can be applied against leaders of a so-called political party.

Giant Venus Juts Over Sidewalk At NY Art Gallery

New York, Nov. 3.—(AP)—"Indecent!" scolded the old lady in the black coat and the Queen Mary hat. "Einsam. Very nice," murmured her husband, cocking an appreciative eye upward.

New York's newest work of art—a whopping great aluminum Venus, buxom as you could imagine and as nude as your nose—drew varied reactions from Madison avenue strollers today.

But the city government's reaction was 100 per cent pro. The 900-pound figure, ornamenting the front of the new \$1,000,000 Parke-Bernet art galleries, brings the taxpayers a tidy \$25 a year.

This is because she juts—especially down her bosom—just 18 inches farther over the sidewalk than the building code allows.

Nobody discovered the lady's chest measurement was outside until sculptor Wheeler Williams had completed her. Then there was much head-scratching.

Could Venus—ah—lines be altered? Certainly not, said Williams. It would spoil the effect. He said the effect was "Venus awakening the sleeping giant of Manhattan to the beauty of art and culture."

Real estate experts finally came up with a solution: If Venus couldn't occupy the extra 18 inches free, she could rent them. The board of estimate approved, and so the lady is free to jut—as long as her sponsors pay a \$25 annual fee.

Venus and the building were dedicated yesterday with speech making and cocktails.

"The city fathers," said William Delano, head of the municipal art sum in rent for the lady's bosom. It is, "demand a considerable is, I'm told, the most expensive—or should I say extensive?—in New York City."

Lewis Asks Schriker Arrange Indiana Talks

Washington, Nov. 3.—(AP)—John Lewis hammered away today trying to crack off a segment of the coal industry—Indiana's operators—for a separate strike peace. Apparently he was getting nowhere.

Lewis appealed to Gov. Henry Schriker of Indiana to renew his efforts to arrange negotiations. Schriker replied it "probably would be useless" to try again. Indiana coal men declined yesterday the governor's bid to meet with Lewis' mine workers union.

Other producers viewed the Lewis move as a divide-and-conquer strategy advanced in hopes of getting an agreement that could be pressed on operator groups in other sections of the country.

John Battle, executive vice-president of the National Coal Association, has said Lewis is on a "fishing expedition."

Lewis continued mum on his exact demands, but has come out for unspecified pay, hours, and welfare plan improvements.

There seemed little promise of an early end of the 46-day coal strike but prospects were brighter in the 34-day steel strike.

In steel, Philip Murray, head of the CIO and its striking steelworkers union, was still trying to press his settlement terms with the Bethlehem Steel Corp., the nation's No. 2 producer, on the rest of the steel industry.

Murray's union leaders were negotiating the Bethlehem plan with most of the other top steel firms, except the No. 1 U. S. Steel Corp., but nobody else had accepted it.

The Bethlehem settlement provides that the employer make up said today, that President Truman noticed wave-like vibrations in the floor every time somebody walked, and across his study in the White House.

But he did, back in December, 1947, and a series of investigations disclosed that the 154-year-old presidential mansion was dangerously weakened and wobbling.

Today, nearly two years later, the contract was awarded for repair work—with the low bid set at \$100,000 above the actual cost.

The renovation is expected to be finished by late 1951, in ample time for Mr. Truman and his family to celebrate Christmas in the White House that year. The Trumans moved out a year ago when the White House was pronounced unsafe for occupancy.

The lengthy process of examining and analyzing the structure—plus the fact that congress had to appropriate money for the job—accounted for the delay in letting the contract.

One result of the probe was a discovery that the end of a wall at the west side of the "state stairway" was supporting 180,000 pounds of "dead weight," far in excess of the figure recommended as safe by the National Bureau of Standards.

Says Schools In Rockford Badly Need State Funds

Rockford, Ill., Nov. 3.—(AP)—Parmer Ewing, Rockford superintendent of schools, said today the school district will be in serious financial difficulty before the end of the year unless the state releases state aid funds.

Ewing said state auditor Benjamin O. Cooper is refusing to release these aid funds throughout the state until the Illinois Supreme Court rules on a case involving the funds.

He said the schools budget for 1949 here counted on \$14,000 monthly in state aid funds. None has been received since July, he said. He added that unless the funds were released, the district might not be able to meet its payroll for the Dec. 15-31 period.

HIDES INCRIMINATING EVIDENCE IN DIAPER

Cleveland, Nov. 3.—(AP)—Numbers game evidence turned up in a new place today as police arrested a 67-year-old baby sitter.

U. S. To Sell Commercial Planes, Gasoline To Yugo

Washington, Nov. 3.—(AP)—The French Foreign Minister Schuman said today cleared the way on current German problems. The French government today cleared the way on current German problems. The French government today cleared the way on current German problems.

It was one of the day's two steps toward strengthening the western side of the cold war in Europe.

In the other move, the state department opened negotiations with eight western European nations on agreements under which they will receive \$1,000,000,000 worth of arms to build the defense of the North Atlantic area.

The gasoline sale to Yugoslavia carried with it lubricants. Amounts were not disclosed. Britain is reported going along on easing the ban on sale of commercial type planes and parts.

Parallel with these steps, French officials in Paris reported that Secretary of State Acheson will fly as far as they know. They labelled there next week for talks with British Foreign Minister Bevin and sign minister.

B-29 Superfort Crashes, Burns In Sea; 11 Killed

Hamilton, Bermuda, Nov. 3.—(AP)—A B-29 superfortress crashed and burned in the sea tonight a mile from shore and 11 of the 14 men aboard were reported killed.

Four survivors managed to escape the flames and were rescued by boat, but one of them died of his burns. Eyewitness ashore said they could hear the screams of the others who were trapped in the flaming sky giant.

The plane was attached to the 373rd weather reconnaissance at Kindley Field, about 10 miles from Hamilton.

It was on a test flight prior to taking off on a regular weather reconnaissance mission tomorrow. Apparently one engine failed and the four engine craft crashed into the sea.

Eyewitnesses said the plane hit the water with terrific force, bounced over the water like a skimming stone, then settled slowly a mile from the north shore of Bermuda.

Gasoline escaping from the plane caught fire.

Witnesses to the crash said William Gleason, manager of the Esso Standard Oil Docks, set out in a rowboat and was able to rescue four survivors, but one died later of burns.

A member of the Bermuda biological station and one other person who was swimming in the area went to the plane to give what aid they could.

Nobel Prizes In Chemistry And Physics Go To Jap And Canadian

Stockholm, Sweden, Nov. 3.—(AP)—Coveted Nobel prizes for 1949 in the fields of physics and chemistry were awarded today to two professors in American universities—one a Japanese and the other a Canadian scientist.

The first Japanese ever to receive the Nobel prize, Dr. Hideki Yukawa, was awarded the high honor for his mathematical discovery of the matter which holds electrons and protons together in the atom. The 42-year-old Dr. Yukawa has been professor of theoretical physics at Columbia university since last September.

Winner of the chemistry prize was Canadian-born Dr. William Francis Glauque, 54, professor of thermodynamics at the University of California, who has studied the action of atoms at an absolute zero temperature.

The prize for literature was shelved until next year after it was reported that the members of the Stockholm academy were deadlocked in their secret meeting over four top candidates, including Winston Churchill and Italian philosopher Benedetto Croce. Although none of the 35 candidates nominated was named, it was believed that the other two in the controversy were the American novelist, William Faulkner, and Carl Sandburg, poet and biographer of Abraham Lincoln.

With today's announcement, four of the five prizes, awarded annually out of a trust left in the will of Swedish inventor of dynamite Alfred Nobel to the years top contributions to humanity, had been allocated. Nobel died in 1896 and prizes have been awarded yearly since 1901.

At an impressive ceremony to be held Dec. 10, attended by the Swedish royal family, former winners of the Nobel prize and leaders of Swedish culture and society, the 1949 winners will receive 156,289 Swedish crowns (about \$30,000 since the crown was devalued as against more than \$40,000 in previous years) for each prize.

Besides the two announced today, prizes this year go to: Peace prize—Lord Boyd Orr, 89, Scottish president of the movement for world government.

Medicine—Dr. Walter Rudolf Hess, 68, of Zurich, Switzerland, and Dr. Antonio Caetano De Abreu Freire Egas Moniz, 75, of Lisbon, Portugal, who share the prize money for their work in the study of the brain.

Chicago Tribune Says Truman Is Out To Get Lewis

Chicago, Nov. 3.—(AP)—The Chicago Tribune said it was learned authoritatively tonight that President Truman "is preparing to hurl the book at John L. Lewis" to end the six weeks old coal strike.

The Tribune in a story from Washington said Mr. Truman has described Lewis to intimates as the one man he hates. The president is said to have regaled his friends with stories beginning, "If I never get anyone else I'm going to get John Lewis."

Mr. Truman, the Tribune said, had conferred with top advisers on using the Taft-Hartley act to end the strike. The president was reported to have asserted he would not use Taft-Hartley against anyone but Lewis.

White House intimates, the Tribune said, believe Mr. Truman may order contempt of court proceedings brought against Lewis under the law, enacted by the Republican controlled 80th Congress.

S. R. Guggenheim, Copper Tycoon, Dies In New York

Port Washington, N. Y., Nov. 3.—(AP)—Solomon R. Guggenheim, 88-year-old copper tycoon, philanthropist and patron of the arts, died early today.

A multi-millionaire, Guggenheim switched from manufacturing embroidery in Switzerland to mining in America, Mexico and South America.

Until three weeks ago, he went daily to his Broadway office. Although suffering a heart ailment, he was not bed-ridden.

He was the last of seven brothers who formed Guggenheim Brothers, one of the world's largest mining companies.

At his bedside was his wife, the former Irene M. Rothschild, and a daughter and son-in-law, Mr. and Mrs. Henry Obre of Baltimore.

His wife, an art student at the time of their marriage, turned his interests to art and in 1937 he established the Guggenheim Foundation which emphasized popular appreciation of modern art.

He was born in Philadelphia, educated in Switzerland and went into the family embroidery firm before turning to mining. He later became a director of a half dozen mining firms and was a major stockholder in the huge Anaconda copper company.

Bottles, Bricks Pelt NY Police From Red Parade

New York, Nov. 3.—(AP)—Bottles and bricks pelted police tonight as they tried to break up a swirling throng of pro-communist torchlight paraders on crowded streets in Harlem.

Four police were injured and taken to hospitals. At least eight persons reportedly were arrested.

Top police officials sped to the scene with reinforcements, and a shaky quiet was restored.

Some 2,000 marchers pushed past a tiny police detail trying to halt a parade along Lenox avenue, the Main street of the heavily Negro Harlem area.

The marchers were honoring Benjamin J. Davis, Jr., Negro city councilman and one of the 11 convicted Communist leaders.

They began their parade after Davis, Henry Winston and Robert Thompson addressed a street rally only a few hours after they were released from detention cells under bonds of \$20,000 each. Winston, a Negro, and Thompson were convicted with Davis of conspiring to advocate the violent overthrow of the U. S. government.

The doctor asked to see samples of treats they had collected.

Among them he found a generous mixture of a common laxative.

CIO Beats Down Leftist Attempt To Change Policies

Cleveland, Nov. 3.—(AP)—Left-wing opposition was beaten down today in its effort to change the CIO's stand on international political and labor affairs.

The CIO convention reaffirmed its support of America's foreign policy, embracing the Marshall plan, the United Nations and the Atlantic pact.

It also backed the CIO executive board for pulling the organization out of the World Federation of Trade Unions which the board said is communist-dominated.

The votes were about the same 10-to-1 margin by which leaders of leftist unions have been beaten on every major convention issue so far.

The convention also voted unanimous support for the nation's striking coal miners in "their righteous and heroic struggle against the united power of entrenched industrial and financial interests."

Harry Bridges, denying that his arguments were "dictated through any pipeline from Moscow," led the left-wing opposition on both international issues.

Fortune Teller Arrested In Philly

Philadelphia, Nov. 3.—(AP)—Mrs. Dorothy Stevens, 31, pleaded guilty today to fortune telling.

Before sentencing Judge Harry S. McDevitt asked:

"How do you tell these fortunes?" "I don't very well," replied Mrs. Stevens. "If I could, I wouldn't be here now."

The judge chuckled.

"Pay the court costs, (\$25.13) and you can go," he said.

Mrs. Stevens did—and went.

Kemper Quits As Treasurer Of GOP; Blasts Policies

Chicago, Nov. 3.—(AP)—James S. Kemper, wealthy Chicago insurance man, quit today as treasurer of the Republican National committee with a blast against party finance policy and the bipartisan foreign policy.

He said he resigned because of the GOP's reserve fund has dwindled from \$832,000 early in 1948 to only \$80,000 at present. It is "a real tragedy," he said, that the GOP leadership has not collected more money or cut expenses drastically.

The 62 year old executive, a Dewey delegate at the 1948 GOP convention, also said he found himself handicapped by the bipartisan foreign policy; he said the GOP follows "unofficially or officially."

He declared that Republicans have been "asked to shower gifts on British socialism—the younger sister of communism," he suggested indirectly that party contributions are lagging as a result.

Kemper's resignation was not unexpected. He had threatened to quit last August. But his method, and his timing surprised some GOP leaders in Washington. It also served to point up the financial hard times that have fallen on the GOP since its 1948 election defeat.

Kemper announced his decision by making public a letter to Guy Gabrielson, Republican national chairman. It was dated Oct. 28, last Friday, but Gabrielson's Washington office said he has not yet received it.

Gabrielson, a few hours later in a Washington statement, expressed regret that Kemper had felt impelled to quit for the reasons Kemper stated.

The chairman praised Kemper's party service and said the party's financial position is far more encouraging now than it was a month or two ago.

Gabrielson expressed belief that enough funds will be raised during the next few months to operate party headquarters and to pile up a "substantial" reserve for 1950 campaign use.

Kemper said he told the committee last August he would quit automatically whenever the party's cash surplus fell below \$125,000. His letter to Gabrielson said he was enclosing a \$35,000 check which Gabrielson had asked for operating expenses, and that it chopped the bank balance down to \$90,000.

Says U.S. Falling Far Behind Russia In Land Power

Washington, Nov. 3.—(AP)—Senator Tydings (D-Md.) said today the United States is falling "pitifully" behind Russia in land power, while the U. S. Navy is "three times" stronger than the combined navies of the world.

He said the Russians now have 12 heavily armored combat divisions for every American division.

In air strength, he said, the United States and Russia are "about equal."

The Maryland senator, chairman of the Senate Armed Services committee, spoke out following his return from a series of conferences abroad with European military leaders. He did not mention Russia by name but his allusions were obvious.

Commenting on the bitter controversy between admirals and generals over their roles in the event of war, Tydings declared that more American defense dollars should go to build up the army and the air force rather than the navy. He said naval aviation must be kept strong.

"Nobody can beat us on the high seas, and we intend to keep the best navy in the world," Tydings told newsmen.

Say Former Coal Miners Dynamited Railroad Bridge

Owensboro, Ky., Nov. 3.—(AP)—Two former Webster county coal miners were held to a federal grand jury today under \$2,500 bond each on charges of dynamiting an Illinois Central railroad bridge near Wheatcroft, Ky., on Oct. 24.

They were listed as Ewing Riley, 55, Providence, Ky., and Howard Dorch, 40, Dalton, Ky. They were arrested earlier today at Providence.

Fred Halford, agent in charge of the Federal Bureau of Investigation in Kentucky, said Riley admitted serving 14 months in federal prison in the early 1930's on charges of helping drop dynamite from an airplane on a coal mine tippie near Providence during a labor dispute.

Halford said Dorch told FBI agents he had served two brief terms on charges of violating federal liquor laws.

The two prisoners were removed to the Davies county jail here in default of bond to await action by the grand jury.

NOURSE'S WARNING SHOULD GIVE US PAUSE FOR CLEAR THINKING

Edwin G. Nourse, chairman of the President's Economic Advisory Council, has spoken his mind in a fashion that ought to command the attention of all Americans. While his remarks are being interpreted as an attack upon the Truman administration, Nourse made plain he did not intend them as such. He wished to spare no one—neither government nor business, labor or farmers.

He hopped on government for not putting its financial house in order, for "slipping back into deficits as a way of life" even while times are still good. He cautioned against "monetary and fiscal tricks" which he termed a "slippery road to misery."

Nourse criticized industrial management for not trying harder to cut prices in the national interest.

Farm, labor and other groups came in for censure for squeezing the U. S. economy in their own special interests. He told them all that they were selfishly demanding too much.

Then he added:

"If we are to maintain the march of economic progress, we must, individually and as groups, in private business and in politics, display industry, prudence and self-discipline and must recognize that we can't get more out of the economic system than we put in."

Nourse was quickly assailed by Senator O'Mahoney, Wyoming Democrat, for making what he called "merely a political argument against progressive policy." But this seems a somewhat odd criticism, for Nourse has just resigned his post on the ground that the council is enmeshed in political issues and Democratic party programs when it ought to be a strictly professional advisory body.

It strikes us that Nourse has done good service in sounding his warning. There is a great need to clear the atmosphere in this highly emotional debate over the "welfare state."

In the first place, no fair-minded person can deny the right of the ordinary citizen to reasonable security safeguards in today's uncertain times. But to acknowledge that right does not mean to lower the bars to an endless flood of demands for help of all kinds.

It is a very delicate task to develop needed security measures and still maintain the economy in its full productive vigor. Yet if due thought is not given to the country's basic economic health, security programs will become pointless.

We find it increasingly tiresome that those who do not understand the relation between productive wealth and security should see fit to attack as unprogressive everyone who does appreciate the connection. Not all critics of unbridled spending and unashamed pressure raids on the treasury are preachers of dark reaction.

We are approaching the time when elections will become contests to reward the party which provides or promises the greatest favors to the greatest number of pressure groups. If that time ever actually arrives, the federal government will be the prisoner of a give-away psychology that it has done virtually nothing to discourage.

For the genuine welfare of America's citizens, that time had better not come. We ought rather to heed Nourse's advice. We ought to think more about putting something into the economy and less about taking something out.

Chamber Of Commerce Official From Kentucky Addresses Nesco Club

Elements essential in the attainment of success and security were the basis for a stimulating address given by Robert Layman, executive vice president of the Owensboro Chamber of Commerce, Owensboro, Ky., at the October meeting of the Nesco Symposium club, held Wednesday evening at the Virginia Country club.

Factors pertinent in the realization of these objectives, as listed by Mr. Layman, are sufficient natural resources, the right type of people and intelligent leadership.

No nation can succeed, declared the speaker, without first the resources to go and people who are genuinely interested in building for the future.

Mr. Layman placed special emphasis on the human element with respect to the success or failure of a business, stating that a business was the direct reflection of the kind of people who worked in it at all levels.

Community Life Stressed
In discussing intelligent leadership, Mr. Layman stressed the need of a well integrated community life, contending that all leadership, in church, school, industry and other activities, should be distinguished on a community level.

He maintained that it is up to the people of a community to make of their community a good place in which to live. This is a job which they must do themselves in an atmosphere of freedom, basing their activities in industry and other community enterprises on a human relationship of knowledge and understanding, with the philosophy of Christ as the foundation.

"A tree grows from its roots up, but dies from its leaves down," asserted the speaker, pointing out that if the top management in industry or other community life dies, the effects are felt by all the participants in that activity.

Oppose Pressure Groups
Following the meeting Wednesday evening, he entertained the group with a varied program of musical selections, demonstrating his abilities as a pianist and violinist.

The meeting was presided over by Robert Hills, club president. Introduction of the speaker was made by Lowell White, program chairman.

The Nesco Symposium club is a chapter of the National Association of Foremen and is comprised of foremen of the local plant. The organization has as its primary function the discussion of management problems, problems between management and labor relations and the development of leadership among management on all levels. Meetings are held monthly.

Simpson Terms Appropriations As "War-Like"

Springfield, Ill., Nov. 2. — "The Democratic-dominated 81st Congress, which concluded its first session on Oct. 20, sat longer, appropriated more money, and propelled the nation deeper into Europe's and Asia's tangled affairs than any other peace-time congress in history," Sid Simpson, Carrollton, representative in congress from the 20th Illinois

district, declared in a speech before a group of Sangamon county Republican leaders at a meeting at the Elks club here this afternoon. Congressman Simpson, a Republican serving his fourth consecutive term in Congress, said that the session's major accomplishments were war-like in nature, including appropriations of one and one-third billions for arms aid to Europe, another \$300 million for commitments under a previous treaty pledging the U. S. to war in event Russia should attack Europe, an another appropriation of \$300 million for atomic bomb operations.

The congressman declared the New Deal's tendency to shout international alarms on Communism while coddling it in Washington bureaus, and said that in the midst of war preparations the Truman administration is curtailing the peace-time draft.

His speech carried a solemn warning that the Europe arms pact against Russia is with such nations as Belgium, which lasted only 19 days against Hitler; Holland, which lasted only five days; Denmark and

Luxemburg, which Hitler virtually took "by telephone"; Portugal, which was a neutral in World War II; Italy, which fought on both sides of the conflict, France, which collapsed in 44 days; and Britain, whose current socialist government is financed by American handouts. For another nation of the pact, Canada, Congressman Simpson had high praise, describing our neighbors to the north as "the only such ally on the whole list."

Junior Red Cross Campaign Under Way In Schools

Miss Marguerite Schoedsack, chairman of Morgan county chapter of the Junior Red Cross committee, reports that some material has been distributed in the county for the enrollment of Junior Red Cross members throughout the schools. Material for the city and other parts of the county will be distributed in the different schools by one of the members of the Junior Red Cross committee within the next few weeks.

Miss Schoedsack pointed out that this year's program called for increased Junior Red Cross services to the community and veteran and military hospitals. It is hoped that a number of correspondence albums, school art and gift books for children in other lands will be exchanged by the Junior Red Cross members in the city and county.

Junior Red Cross members are doing an important job of meeting needs of children overseas. They have sent more than \$6,000,000 of school supplies and health articles to war-devastated countries during the past war period and exchanged thousands of correspondence albums and pieces of student art. Thank you letters from foreign children pour into National Red Cross headquarters in Washington, D. C., on an average of 300 per day.

The Junior Red Cross council at the Jacksonville high school, Miss Elmore Stoldt, faculty advisor, took the responsibility of filling the kits for the campaign, which will be in progress Nov. 1-15.

Onion Shipment Brings Tears In Lebanon

Bierut, Lebanon — (AP) — A minor tempest was stirred up when the Trans-Arabian Pipeline Co. here received 15 tons of potatoes and onions in a shipment of supplies from the states. Local newspapers and officials complained because Lebanon — western terminus of the oil line the American firm is building from Saudi Arabia — currently has a serious surplus of thousands of tons of both items.

Red-faced company officials ex-

plained it was a mistake in their New York office. They said a well-meaning employee there made up the list on the basis of usual needs at the eastern Saudi Arabian end — where there are no local potatoes or onions. The situation was resolved to the satisfaction of all when the company donated the shipped in foodstuffs to Arab refugees of the Palestine war.

Prof. Wever Is Author Of New Book On Hearing

Prof. Ernest Glen Wever of Princeton university, a graduate of Illinois college, is the author of "Theory of Hearing," a new textbook in the acoustical and sensory phases of psychology. In the book Prof. Wever develops a new "volley" theory of how people hear.

In experiments with animals, Prof. Wever has endeavored to conduct sound through the auditory nerve and other nerve tissues. He is also trying to determine the possibility of enabling deaf persons to hear through some other part of the body when the connection between the auditory nerve and the ear has been destroyed.

Prof. Wever received his A.M. and Ph. D. degrees at Harvard university. Mrs. Wever, formerly Suzanne Rinehart, was a resident of Jacksonville and a graduate of Illinois Woman's college, now MacMurray College for Women, with the class of 1923.

Transportation Big Problem In Mission Work

The Rev. Ralph Varhaug, Presbyterian missionary on furlough from Brazil, presented a vivid picture of life and conditions in that country at the annual praise service of the Woman's Missionary Society of Westminster church on Wednesday evening.

High among the difficulties attending his work he ranks transportation; much of his traveling is done on muleback, although at the present time the Mission Board owns two airplanes, and young men in training for evangelistic work are learning to be pilots. On a recent trip he covered in two hours and a half by plane a distance which had formerly taken 15 days.

Language difficulties rank high also; after careful training in the Portuguese language the missionary finds it necessary to discard all but the simplest words and forms when working among the scattered rural population. The population of the country is composite, made up of na-

During the social hour, which was in the charge of Ruth Baird, bingo was played. Prizewinners were Helen Baird, high, Edith Welsh, low, and Lynda Balke, floating.

Lucy Jones was remembered by her Mystery Pal. Refreshments were served at the close of the meeting.

COURT GOES TO NEW CITIZEN

Washington—(AP)—Mrs. Ida Rose, 60, a native of Lithuania, went to court to get her first citizenship papers, but when it came time for her to get her final certificate she had become bedridden.

District court rules were relaxed to allow Judge Henry A. Schweinhaut to go to her home to conduct naturalization proceedings.

Ship to CLAY... It Surely Will

Recently, we caught weight on fifteen bunches of hogs totaling 750 head as they came to our pens. After being fed and watered in Clay's clean pens, the hogs were again weighed and showed a gain of 7 1/4 pounds per head.

The average market price for the period under survey was \$22.75 per cwt, resulting in a gain of \$1.62 per head, or \$1215.00 on the entire lot. This item alone will go a long way toward paying your marketing expenses.

Eighty cylindrical steel bins, like those above, hold 3380 bushels each, 15 wooden bins will hold 60,000 bushels, and six Quonset-type buildings will hold another 60,000. As each storage unit is completed, it is filled with corn from the 1948 crop, freeing farmers' own bins for this year's big crop.

Jealousy Blamed For Slaying Of 4 In Shooting Orgy

Santa Rosa, Calif., Nov. 2.—(P)—Jealousy and an old hatred motivated the slaying of four persons in a wild shooting rampage northwest of here last night, county authorities said today.

District Attorney Charles J. Mc-

Goldrick said Policarpio "Henry" Pio, 37 year old Filipino ranch worker, admitted orally that he did the shooting but he didn't know how many he had killed.

Shotgun blasts first cut down Clyde Howard, 23, a navy veteran; Maria Silvas. McGoldrick said Pio's jealousy was aroused by the marriage of Mrs. Howard, his former girl friend.

The shooting occurred at Pio's cabin on the Old Wohler Ranch

between Healdsburg and Guerneville. The Howards and Mrs. Silvas had gone there to pick up a small trunk belonging to Mrs. Howard.

WOOL COSTS CITED
Melbourne.—(P)—The Australian Wool Board says: "if your new suit costs more, don't let your tailor blame the price of wool for all the increase."

The board says the raw wool in a \$30 suit in Australia cost \$3.66. That in the Old Wohler Ranch is about 12 per cent of the cost price.

Planes Find Ruins In Italy

Foggia, Italy.—(P)—War experiences have led a young British professor to import an archaeological discovery in southeastern Italy.

Prof. John Bradford, 31 of Oxford University (Pitt Rivers Museum) was a Royal Air Force pilot during World War II. In his flights over the Gargano plateau, he noticed traces of neolithic ruins hitherto unmentioned in archaeological textbooks.

He came back a few days ago. So far Bradford has discovered the medieval village of Salpi. It is of interesting historic value and its full plan is clearly outlined from the aerial photographs. Another unknown village was discovered by the party near Torione del Casone, on the highway Pescara Lecce.

Prof. Bradford's use of aerial photography for archaeological research is completely new in Italy. The British used it widely, especially in the Mesopotamian desert to trace the ancient Assyrian towns between the two wars.

Old Mill To Work Again

Pawtucket, R.I.—(P)—The first successful cotton mill in America soon will hum again, this time as an historic exhibit. Established in 1793 by English-born Samuel Slater, who employed locally hewn lumber, the mill now is being reconditioned by the Old Slater Mill association.

The association plans to re-equip the sturdy structure with ancient machinery and set it in motion early next year.

The machine most desired, however, is in the Smithsonian Institution—Samuel Slater's first machine of its kind made in America. Slater brought its intricate "plans" to this country "in his head." Its mechanism was a carefully guarded secret in England.

The first patent for the coaxial cable, designed for television relay, was filed on May 23, 1929. It was not until October 5, 1936, that the first circuit, from New York to Philadelphia, was opened for tests.

CHICAGO LIVESTOCK MARKET REPORT

Chicago, Nov. 3.—(P)—Hogs rebounded a little from their three-year low levels in a strong to 25 cents higher market today. Cattle generally were steady although some cows were strong and some bulls to 25 cents lower. Sheep were strong to 25 cents higher.

The resurgence in hogs came despite an overnight supply which was 500 higher than trade expectations. Barrows and gilts grading good and choice generally sold from \$16.75 to \$17, a daily peak of \$17.10 being paid sparingly. Sows were mostly \$14.75 to \$16.50.

A few loads of choice steers failed to clear at prices starting at \$37. This left the trade top at \$35, paid for two loads of choice heavies. Medium and good steers and yearlings brought \$21.50 to \$23.50. Good cows ranged downward from \$18.50, sausage bulls from \$19.50, and vealers from \$30.

Choice woolled lambs topped at \$24.50 and choice clips at \$24.25. Most good and choice slaughter lambs merited \$23.50 to \$24.25. Good to choice yearlings reaped \$20.50 and ewes ran \$11 and under.

On sale were an estimated 9,500 hogs, 3,500 cattle, 400 calves, and 2,000 sheep.

150 Duck Blinds Built At Lake Jacksonville

Morgan county sportsmen will give ducks and other migratory wildfowl a noisy reception in the Lake Jacksonville area when the season opens at noon Friday.

It was estimated Thursday that at least 150 blinds have been built around the lake by hunters who will occupy them at various times during the duck hunting season. The blinds have been camouflaged with dried grass, leaves and tree limbs, so that many cannot be seen except for a second look.

Flights of ducks have been coming to rest on the big lake for several days. Occasionally geese are seen cruising over the lake but few of them descend to the water.

Hunters in the lake area are governed by a "gentleman's agreement" as to the use of blinds. Each hunter who goes to the trouble to build himself a blind expects to retain it for his own use, and during the years that duck hunting has been a popular sport at the lake, there have been few arguments as to shooting locations.

On the eve of the duck hunting season, the Jacksonville Sportsmen's club urged every sportsman to use extreme caution in the handling of firearms, and pointed to the "Ten Commandments of Safety" as a guide. These rules for safety follow:

- Treat every gun with the respect due a loaded gun. This is the cardinal rule of gun safety.
- Carry only empty guns, taken down or with the action open, into the water.

GRAINS RETREAT AFTER ADVANCE

Chicago, Nov. 3.—(P)—Grains retreat after knocking out some new 1949 highs on the board of trade today. Profit-taking forced the retreat. Many contracts fell below the previous close.

Before the late sell-off, March, May and July corn contracts scored new seasonal highs. Light cash grain receipts, plus prospects for a reduced acreage next year, spurred buying. December and May oats eked out new 1949 tops by making slight gains.

Wheat lagged most of the session here, although all deliveries at Kansas City and Minneapolis scored seasonal peaks. The relative weakness here is blamed by traders on large supplies in local elevators, particularly of mid-western red wheat for which demand is poor.

Although November hard fell to a new low for any hard future since 1941, other contracts had a firm tone. Soybeans held moderately higher most of the day, aided by a better demand for soybean oil, but fell back with the rest of the market toward the close.

Receipts were: wheat 5 cars, corn 304, oats 27, rye none, barley 30, soybeans 57.

Wheat closed 1-1/2 lower, December \$2.11-2.12, corn was 2-1/2 higher, December \$1.19-1.21, oats were 1-1/2 lower, December 73, rye was 11-1/2 lower, December \$1.42, soybeans were 7-1/2 lower, November \$2.25-1.31, and hard was 20 cents lower to 10 cents a hundred pounds higher, November \$9.52-9.50.

Medical Check-Up For All Diseases At One Time May Replace Separate Tests

New York, Oct. 29.—(P)—A shot-gun hunt to find and halt diseases by Dr. C. Kelly Canelo, a private physician representing the county Medical Society; Dr. Dwight Bissell, San Jose city health officer; Dr. Herbert Abrams of the state health department, and Dr. Breslow.

The combined tests have many advantages, Dr. Breslow said:

1. The screening tests can be given by technicians, saving the time of physicians for diagnosis and treatment of the people found to have some trouble. The tests are only a screening device, to detect people who may be ill, and then send them to their own doctors for final diagnosis and treatment.
2. The multiple tests wouldn't take much longer than a single visit to a clinic that tests for only one disease.
3. There would be savings in money for health departments and voluntary tuberculosis, cancer, diabetes or other groups interests in preventing specific diseases. There would be less duplication of trained personnel, facilities, test equipment, and overhead expenses.
4. Your family doctor could get a profile of your health status, as shown by these tests. It is much less expensive to have mass X-rays or other tests than to pay for them individually.

Even a simple battery of tests could probably spot 20 to 25 people with unsuspected, significant disease out of each 1,000 examined, he said.

The first trial with multiple tests was made in San Jose, Calif., on 945 working in four industries. Each got a chest X-ray, blood test and urinalysis. It took 15 minutes for each worker.

Thirteen were found to have unsuspected tuberculosis, diabetes, or diseases of the heart, blood vessels, or kidneys. Another 16 were found to have diseases that had been diagnosed before. But some of these persons had stopped getting treatments.

Mexico Wins Again In National Horse Show In NY

After each of the three others on the Mexican team had faulted by knocking down one or more barriers, Marlies—riding Arete—toured the difficult, twisting course perfectly. This was the fifth time the German crowd stood still while the band played the Mexican national anthem in honor of the daring horsemen coming below the border. There have been five international military jumping events in the first three days of the show, and Mexico has won them all.

The Brooklyn Dodgers won 48 and lost 29 games at Ebbets Field during the past season for a .623 percentage. They won 13 and lost nine under the lights.

The CAMEO

By Virginia Teale

Copyright, 1949, NEA SERVICE, INC.

THE STORY: Martin Falter, after failing to sell a valuable cameo which he had obtained through undisclosed channels, has asked Martin Pfeiffer, a friend, to sell it to a San Francisco dealer. When Martin refuses, Arnold threatens to expose a scandal in Martin's past. Previously Arnold had offered the cameo to Hagar Blair, a local collector, at a price Hagar could not afford, but Stephanie Smith, who works in Hagar's gift shop, apparently wants the cameo badly. After Martin leaves, Arnold Pfeiffer's place, Nell O'Neill, wife of a wealthy resident of the Dolores area, calls on Pfeiffer, asking for Martin.

IV
ARNOLD PFEIFFER tossed an unopened pack of cigarettes into Nell O'Neill's lap. She picked them up, giving him a mocking smile.

"Genuine Old World courtesy always rampant at the Pfeiffer weaving studio," she remarked in her hoarse, unpleasant voice.

Arnold bowed elaborately. "Did Martin say anything to you about going away? About taking a trip or anything like that?"

"Trip? Him, or me?" Arnold kept his eyes on the cigarette he was fitting into his holder.

"Don't be funny, Arnold," she rasped. "Did he say anything about going away himself?"

Arnold lighted his cigarette. "Not that I remember."

She tapped her long nails on the arm of the chair. Arnold stared at her hand as he

4-H Camp Building Fund Now \$220,000

This report came from F. H. Myrland, chairman of the fund-raising drive and 4-H specialist in the Illinois College of Agriculture.

Myrland said a little over \$53,000 had been contributed since March 1949. Of the total \$220,000, \$60,000 has been contributed by business, industry, and personal donors.

4-Hers throughout Illinois started a 10-year campaign in 1947 to raise \$1,000,000 for developing four district camps. The latter two camps were used for the first time this summer. 4-H boys and girls themselves, through their clubs all over Illinois, are raising one-half of the total.

Chicago, Nov. 3.—(P)—Postmaster General Jesse M. Donaldson today asked assistance from U. S. postmasters in cutting expenses and maintaining services.

Donaldson prepared his address for the closing session of the National Association of Postmasters. He said:

"As you know, President Truman has requested all government departments to reduce expenditures consistent with necessary service.

"Make a careful survey of your offices when you go home from this convention. Find out if you are doing business in a businesslike way. Be sure the public is satisfied that you are meeting all reasonable requirements of your patrons.

"We can do this only when we operate a good service at the least possible cost, and by good management eliminate all mistakes that produce unnecessary complaints against the service."

Says One Of First Tucker Motors Had Only 20 HP

Chicago, Nov. 3.—(P)—A former Tucker corporation engineer testified today that one of the first Tucker auto engines built delivered only 20 horsepower instead of the 160 horsepower expected.

He also testified that several types of brakes were tested but that they would not have fit on the car even if they had proved satisfactory.

The testimony was given by Paul G. Wellenkamp of Bernardsville, N.J., former \$200,000 a year manager of the Tucker engineering department. He testified at the multimillion dollar federal court mail fraud and conspiracy trial of Preston Tucker and seven associates.

At the same time there were developments involving Tucker and the corporation in two other courts. A plan to advise Tucker's 44,000 stockholders that a plan to reorganize the firm through \$400,000 in new financing was tentatively approved by Federal Judge Michael L. Igoe. The proposal suggests issuance of \$200,000 of preferred stock in a reorganized firm. Stockholders, under the proposal, would be permitted to buy the \$6 par value shares at \$5.40, at a rate of one new share for each now held. Attorney Warren H. Orr, representing a stockholders' committee, said he hoped to borrow another \$200,000 from the reconstruction finance corporation.

Little Girl Safe After All-Night Ride With 2 Men

Mullins, S. C., Nov. 3.—(P)—A small daughter of a tenant farmer turned up unharmed today after an all-night ride with two strange men.

Mary Spivey, seven-year-old blond, was tired and hungry when taken into the rural home of George Rogers, 15 miles from the point where her school bus let her out on a roadside yesterday. It was there that she entered the car with the two men and drove off as schoolmates looked on.

The sheriff's office announced that Jerome Alford, 30, and Hugh Smith, 22, farmers, were in an undisclosed jail. Deputies said no charges had been preferred.

"I understand from the doctors that those fellows didn't bother her," said Deputy Sheriff Burt Rogers, one of three officers who returned the child here for an examination at a Mullins hospital. Later in the day, Mary and her parents went to an infirmary at Florence for a further examination of the child. Of the two under arrest, Deputy Rogers added: "they'd been drinking."

Deputy Sheriff Sam Holden quoted the men under arrest as saying they "thought she was hungry." He said the men lured the child into their car with cake and bubble gum. Children standing nearby said Mary screamed and tried to get out as the car drove away.

Strikes Bring Boosts In State Relief Load

Springfield, Ill., Nov. 3.—(P)—The coal and steel strikes have resulted in a big rise in state-federal relief awards in Illinois.

The state public aid commission said today that November checks will go to 99,860 persons, the largest total since May, 1943.

To meet the load, the commission allocated \$2,050,979. This is \$334,896 more than the average amount budgeted for each of the next 19 months.

The number of November recipients is 2,844 more than in October and 7,774 more than in September.

State aid to 5,502 families on relief rolls will be cut or discontinued altogether, the commission also reported.

It said the slashes result from special investigations by IPAC county agents during October, the first month of an intensive economic drive.

So far 17,244 cases involving aid to dependent children, old age pensions and blind assistance have been re-investigated. As a result, cancellations are running 10 times the normal rate.

About 53 per cent required no adjustment. About 10 per cent were found entitled to increases. The number of cases dropped is 2,636. The number in which payments were cut is 2,866. The adjustments will appear in November or December payments.

Continued spending at the present rate will put the IPAC \$18,000,000 in the hole by the middle of 1951, an official said.

Rules WAACS Not Entitled To State Soldiers' Bonuses

The WAACS later were replaced by the Women's Army Corps which was part of the regular army.

Bolivian Pilot Who Rammed Plane In Critical Shape

Washington, Nov. 3.—(P)—The battered Bolivian pilot whose fighter plane rammed a giant airliner was reported in critical condition tonight after learning the extent of Tuesday's disaster.

All 55 persons aboard the passenger ship were killed. It was the worst airplane crash in history.

Doctors attending the pilot, Erick Rios Brixoux, at a hospital in nearby Alexandria, Va., said he is suffering from pneumonia as well as a fractured spine, three broken ribs, head lacerations and multiple bruises.

They said tonight he had a 60-40 chance to live. His pneumonia condition seemed somewhat improved, although he was described as still moderately depressed. Earlier, attendants said the patient had become listless and uncooperative.

News that Rios Brixoux had taken a turn for the worse coincided with a disclosure that someone finally had informed him of the magnitude of the catastrophe. Conscious throughout, he had begged repeatedly for newspapers but had been told he was in no condition to read.

Sherman Erases 'Op 23,' Planners Of Navy Charges

Washington, Nov. 3.—(P)—Admiral Forrest P. Sherman today wiped out "Op 23," the reputed naval board of strategy in the admiral's bitter attack before congress on Pentagon policies.

The crackdown came less than 24 hours after Sherman was sworn in as the new chief of naval operations. "Op 23" is naval parlance for "Operations Division 23."

Until today, it was a 30-man group unofficially described as having functioned in the role of a navy "task force" to organize the navy's case in the recent stormy hearings on inter-service squabbling before the House Armed Services committee.

The group was said to have been instrumental in aiding the navy's fight designed to bring about changes in high military strategy under the unified defense setup.

Among other tasks, the "Op 23" section was reported to have helped prepare and distribute transcripts of testimony aired by a parade of top admirals during the congressional hearings, including blistering criticism of the air force's bill-dollar B-36 bomber program.
